AutoEntry

Why use AutoEntry?

There's a lot to focus on when running a business. From meeting deadlines, to growing profits and serving customers, there just isn't enough time in the day for unnecessary admin such as manual data entry.
And with the availability of automated solutions, like AutoEntry, there doesn't need to be any.

AutoEntry is an award-winning data entry solution for businesses of all sizes and across all sectors and industries.

It works by reading information from scanned or photographed paper documents, meaning you won't need to spend hours typing up data from your invoices or receipts any more.

Simply take a photograph on your phone and all of the information will be entered automatically into your accounting software, or you can download the data into a spreadsheet.

Using the mobile app

The AutoEntry mobile app is compatible with Android and Apple devices and allows users to work whenever and wherever they choose.

Once downloaded, users have access to a range of integrated features at their fingertips. This includes the ability to capture multi-page invoices and to monitor the progress of items in real time.

Getting started in three steps

1. Purchase AutoEntry through our practice, with a 30% discount .

2. Scan, email or take a photo of the document you want to capture.

3. Sit back as AutoEntry extracts and analyses the data from this document. Once completed, items will appear in your inbox for you to approve and post into your accounting solution.

What makes us special

AutoEntry lets businesses work smarter and more efficiently due to its unparalleled range of time-saving features. Here are just a few of them:

Flexible document capture:
AutoEntry accurately captures the key information from almost any type of paper document, including bank and credit card statements, bills, invoices, receipts and more

Expenses capture:
Upload expense receipts, adding these to expense reports before posting this information into your accounting software

Auto publish:
AutoEntry 'remembers' how you process invoices and receipts, including which supplier account or tax codes you assign

Cloud storage:
Once AutoEntry has posted your information, it securely stores all of your data in the cloud, retrievable at the touch of a button

Seamless integration with AutoEntry

AutoEntry integrates seamlessly with all major accounting and bookkeeping solutions, including:

ACCOUNTS IQ   myob   freeAgent

A secure solution, GDPR ready

AutoEntry employs best practice security policies including encryption across the platform, keeping your data secure at all times.

Following the enforcement of the GDPR, we're fit for purpose and will do our part in keeping your business compliant according to the legislation.

ROI: Driving value for your business

By using AutoEntry, you'll be able to:

Reduce the costs associated with bookkeeping data entry

Become more productive and focus more time running your business

Eliminate human error when typing in data by hand

Support a paperless office

Benefit from better data security, in line with the GDPR
